Class 12C

General Information

Term 2 is well on the way and I look forward to working together with you and your child on their education journey. The cooler weather has begun and I would like to remind parents to please name any jumpers that are worn to school so we can return them if they are lost. Also, if names on hats have faded, it would be a great time to freshen those names up too.

Just a reminder we have our library visits on Wednesday and PE and Music on Wednesday and Thursday. Resulting from parent feedback, 12C's homework will be handed out on Friday and returned on Thursday, no need to come in daily. Home-readers are due back on Thursday also, to be changed for the week ahead. Please continue to fill in your child's reading log book, once they read out loud to you. At this stage of their reading, it is required for them to be reading aloud to an adult. If you have any questions, please feel free to see me before or after school.

This year we are learning to be more independent. This means that students will be responsible for ensuring that blue bags are unpacked at the beginning of the school day and packed at the end of the school day. Please let your children grow by allowing them have this small role of responsibility by taking care of their blue bag unpacking each morning.

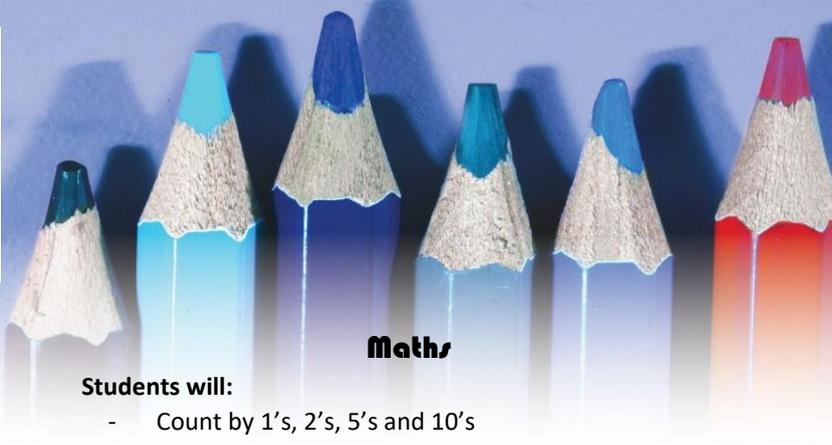

English

Character Description: Exploring characters in stories

In this unit students listen to, read, view and interpret spoken, written and multimodal literary texts to identify some features of characters in these texts and to create character descriptions.

Procedure - Creating digital procedural texts

In this unit, students listen to, read, view and interpret traditional and digital multimodal texts to explore the language features and text structures of procedural texts in imaginative and informative contexts. They create a digital multimodal procedure from a literary context. Students explore a series of picture books with persuasive features and create an innovation of an imaginative text that includes persuasion.

Maths

Students will:

- Count by 1's, 2's, 5's and 10's
- Record and solve simple addition and subtraction
- Explore features of Australian coins.
- Investigate wholes and halves, partition to make equal parts
- Use Number and place value
- Investigate and describe repeating and growing patterns, connect counting sequences to growth patterns
- Use units of measurement — describe the duration of an hour, explore and tell time to the hour
- Investigate the features of three-dimensional objects and two-dimensional shapes
- Explore, investigate and describe location, position, direction and movement

Science

Material Madness

Students explore how everyday materials can be physically changed in a variety of ways according to their properties.

Students will:

- Construct a boat that floats.
- Describe the effects of physically changing a material to make a boat that floats.
- Make a prediction, participate in a guided investigation and record and share observations.

Humanities & Social Science

My changing life

In this unit students will explore the following inquiry question:

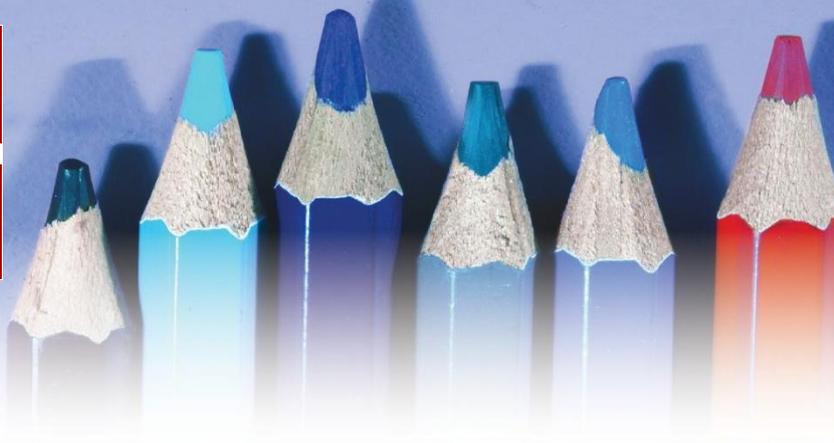

- *How has my family and daily life changed over time?*

Students will:

- Explore family structures and the roles of family members over time
- Compare aspects of their daily lives to aspects of daily life for people in their family in the past to identify similarities and differences
- Respond to questions about the recent past
- Sequence and describe events of personal significance using terms to describe the passing of time
- Examine sources, such as images, objects and family stories, that have personal significance
- Share stories about the past.

Class 12C

Physical Activity

In PE this term the

Year 1 students will perform fundamental movement skills of two-handed throwing and two-handed catching, soccer dribbling and basketball dribbling. They will test alternatives to solve large ball challenges and identify how the heart reacts to various physical activities.

Health

Good Choices, Healthy Me

Students examine health messages related to the health benefits of physical activity, nutritious dietary intake and maintaining good personal hygiene habits to help them stay healthy. Students describe actions that keep themselves and others healthy in different situations.

Students will:

- Examine messages related to health decisions
- Describe how to keep themselves and others healthy and physically active.

Music

This term students will continue to explore fiction and non-fiction books and everyday texts as stimulus for music making. They will refine their performance skills and analyse a focus song "Rocky Mountain."

Performing Arts

Dance

This term students will continue to use stories as stimuli to create and perform dance sequences and formations.

Drama

This term students will continue to use story books as stimuli while focusing on dramatic elements: voice, movement, soundscapes, and improvisation.

Technology

In Technology, children will be designing a boat that floats, which is a part of the science unit. Children will participate in a variety of art activities which enhance the characters studied in English. They will also participate in Mother's day and Anzac day craft.
